

PROJECT MOTHER EARTH

A way to go

The project intends to start a process of dialogue and gatherings, giving the right value to origin cultures and diversity, while generating group cultural identity, in order to be conscious of future exposures and ongoing changes. This project is addressed to foreign and Italian women, and their children.

ACTION 1 - CROSS-CULTURAL WORKSHOPS

We are providing three sessions of two hours each workshop. The subjects are:

- The travel: a new beginning.
- Moving to a foreign country: parenthood.
- The life's project: a future together.

ACTION 2 - CHILDREN WORKSHOPS

Children can attend activities aimed to promote socialization and communication between kids of different nationalities, integrate and enhance game culture from other countries and support the creative-expressive learning of each child as well as their cultural background, particularly in a perspective of transcultural synthesis.

September 2014

Headquarters I.B.I.S. - Piazza Sebastiano Satta - Nuoro

Registration is open!
